

Project Management Professional (PMP)[®]

One-on-One PMP Certification Workshop

Because proving your Project Management capability is important, to you and to the organizations you work with, the Project Management Institute (PMI) has created the Project Management Professional (PMP)[®] designation. To become a PMP, you must pass a written exam, plus meet the work and education criteria (please see www.pmi.org for detailed information.)

One-on-One versus the 5-Day Classroom Workshop

You could take a 5-day classroom workshop on preparing for the PMP exam. These courses can be good, but have some drawbacks:

1. With five days away from the office, you end up doing your “real work” after class and waste both your time in class and working.
2. In a classroom session, there may not be enough time to focus on all of your specific needs.

So – what’s the solution?

The One-on-One PMP Certification Workshop

Take BrenDaniel’s three-day “One-on-One PMP Certification Workshop”. This workshop gives you personal consulting in Project Management. You will have an experienced Project Management facilitator guide you, and only you, through the exam and Project Management Body of Knowledge (PMBOK) content.

This workshop works around your schedule and needs, while providing Professional Development Unit (PDU) credits towards your PMP certification.

What You Cover

Starting with the 5-day class workbook, you get many extra examples and exercises on your areas of focus.

Ongoing Support

After the One-on-One session, you continue to get support for exam preparation. You get:

- Example questions that you can use to prepare for the exam, emailed to you to suit your schedule

- Email support on your individualized study plan – ensuring you stay on-track
- Access to BrenDaniel’s PMP blog, where you can post questions, discuss, and receive answers
- Support by email on any particular questions you have on content or preparing for the exam

Your Personal Consultant – Dan Fay

Dan Fay is an experienced Project Management facilitator, having trained over 4,000 personnel worldwide in Project Management and Leadership. Having worked in many cultures, Dan knows how the PMBoK applies in numerous industries and organizations.

Ninety-four percent of participants in Dan’s PMP Certification workshops have passed the exam on their initial try. This is a remarkable statistic.

A Great Idea – It Must be Expensive?

This workshop is \$2,000 USD plus travel if occurring outside of Halifax, NS or St. John’s, NL (Canada). Why pay more for 1/20th of a session’s focus when \$2,000 gets you your own personal tutor?

An Option – Visit Nova Scotia

Rather than paying for the facilitator to come to you, why not go to the facilitator? Come see amazing Nova Scotia, Canada for the same overall cost PLUS enjoy Nova Scotian hospitality.

Take the Next Step

To get started on your One-on-One session:

1. Email daniel@brendaniel.com with your name, telephone number and time zone.
2. Get and read the PMBoK. The most cost-effective way to get one is through www.pmi.org (OR from a friend.)
3. We will contact you to discuss your objectives, work patterns and target date for getting your PMP. Together we will create a session that fits your timings and priorities.
